Excerpt from Mary Wollstonecraft and the Beginnings of Female Emancipation in France and England The history of the Emancipation of Women is the long and varied record of their slow and gradual liberation from that utter subjection to Man in which various circumstances beyond their control among which the physical superiority of the latter, a form of male supremacy which has seldom been called into question, was probably the most prominent had combined to place them. It relates how in the course of centuries either with the support of a certain portion of the Opposite sex or relying upon their own resources they strove to cast off the shackles which bound and degraded them, and to acquire that degree of physical, intellectual and moral freedom to which they felt themselves entitled. That the movement towards complete enfranchisement met with a varied reception and was hampered and retarded by men and often by women themselves was due chiefly to the fact that in the question of female possibilities there was much diversity Of Opinions at different times and among different nations. The worst enemies to evolution of this kind were those women who, holding the Empire of Love and Gallantry to be their exclusive domain, in which their sway was not likely to be ever disputed, turned deliberately against those of their own sex who in trying to wrench from the hands of men the sceptre of social power, were willing to forego the privileges of sex. That women were thus divided among themselves from the first, was the natural outcome of those differences in personal attractions and in personal intelligence which have always constituted the great danger of too sweeping...
