

## Veritatem Percipimus

By Isroel B Babayev

Isroel B Babayev. Paperback. Condition: New. 70 pages. Dimensions: 11.0in. x 8.5in. x 0.2in. The OUR PERCEPTION OF REALITY is an eye opening educational aid, reference guide and visual assistant to demonstrate in simple, non-technical, terms the creation of our universe, processes and forces we experience and observe in our daily lives. It shows how slight, philosophical change in perception as well as interpretation of physical laws would have a profound and everlasting effect in understanding and accepting our reality. Throughout the book I'm using examples and illustrations from our everyday life, as well as thought experiments that are easy to follow and duplicate for practically anyone, with or without scientific training. While this book explains most physical processes, it is, in fact, all about the psyche and falsified perceptions, where often human conscious mind driven by subconscious phobias is refusing to accept the obvious, only because from the early age it was conditioned to expect something different. For example; do you know there are no such things as push and pull or even attraction and repulsion? And it gets even weirder, where force (the force and not four as perceived) and dimensions are not what we expect them to be....
