Random House USA Inc, United States, 2003. Paperback. Book Condition: New. Reprint. 173 x 107 mm. Language: English . Brand New Book. With the incomparable vision and breathtaking detail that brought his now-classic Mars trilogy to vivid life, bestselling author KIM STANLEY ROBINSON boldly imagines an alternate history of the last seven hundred years. In his grandest work yet, the acclaimed storyteller constructs a world vastly different from the one we know. The Years of Rice and Salt It is the fourteenth century and one of the most apocalyptic events in human history is set to occur the coming of the Black Death. History teaches us that a third of Europe's population was destroyed. But what if? What if the plague killed 99 percent of the population instead? How would the world have changed? This is a look at the history that could have been a history that stretches across centuries, a history that sees dynasties and nations rise and crumble, a history that spans horrible famine and magnificent innovation. This is a universe where the Industrial Revolution is triggered by the world's greatest scientific minds in India. This is a universe where Buddhism and Islam are the most influential and practiced religions and Christianity is merely a historical footnote. Through the eyes of soldiers and kings, explorers and philosophers, slaves and scholars, Robinson renders an immensely rich tapestry. Rewriting history and probing the most profound questions as only he can, Robinson shines his extraordinary light on the place of religion, culture, power, and even love on such an Earth. From the steppes...
