Her partner, Zack Abbott, had a smile that made her imagination drift to thoughts of more than friendship. Two new clients turn their world upside down as they explore the seedier side of historical Ybor City, thrusting them into temptation, uncertainty, and government secrets. A man made virus has been smuggled out of a Top Secret lab on base, and threatens to irrevocably change life as they know it. If that isn't enough, the Blood Moon is ascending on the horizon, one of a total of four lunar eclipses in a row that is rumored to signal the end times.
